16 October 2023

To Whom It May Concern,

I am pleased to write this letter of recommendation on behalf of Nakhon Si Thammarat City Municipality for their outstanding achievement in the field of flood control through the implementation of their Innovative Flood Control using a Smart City Mobile Application.

Located at 1082 Ratchadamnoen Rd., Khlang, Mueang, Nakhon Si Thammarat, 80000 Thailand, Nakhon Si Thammarat City Municipality has demonstrated exceptional innovation and dedication in addressing the critical issue of flooding within their municipal area. Their project named "Innovative Flood Control using a Smart City Mobile Application in Nakhon Si Thammarat City Municipality, Thailand," has garnered recognition and acclaim on both national and international levels.

In particular, I would like to highlight that Nakhon Si Thammarat City Municipality was awarded the prestigious Thailand Smart City Solutions Award in 2022 for their groundbreaking flood control initiative. This accolade underscores the municipality's exemplary efforts in leveraging digital technology to safeguard the lives and properties of its residents while also significantly reducing the financial burden associated with flood management.

Furthermore, it is with great pride that we share news of the recent achievement of the Smart City Mobile Application, which received the Best Partnership Award in 2023 alongside DEPA at the esteemed World Smart City Expo 2023, hosted by the Ministry of Land, Infrastructure and Transport in Republic of Korea. This notable recognition serves as a testament to the fruitful collaboration between Nakhon Si Thammarat City Municipality and DEPA in spearheading innovative solutions for urban resilience.

The success of Nakhon Si Thammarat City Municipality's flood control initiative is evident in the remarkable fact that there have been no reported incidents of flooding within the municipal area in the past two years (2021-2022). This accomplishment is a clear indication of the effectiveness and impact of their Innovative Flood Control using a Smart City Mobile Application in mitigating the adverse effects of flooding.

In conclusion, I wholeheartedly endorse Nakhon Si Thammarat City Municipality's innovative approach to flood control through their Smart City Mobile Application. Their dedication to ensuring the safety and well-being of their residents, as well as their commitment to prudent resource management, serves as a shining example for municipalities nationwide. I have every confidence that their remarkable achievements will continue to inspire and drive progress in the field of digital urban resilience.

Should you require any further information or clarification, please do not hesitate to contact me.

Yours sincerely

(Mr.Nuttapon Nimmanphatcharin)
President /CEO of Digital Economy Promotion Agency
