

SCITI 2026 — Evidence Appendix

CEA Creative Excellence Awards 2026 · Category 1.3 Creative City Policy Award

1. Submission Documents Produced for CEA 2026

Evidence	File / Location	Description
Thai Executive Summary	<code>cea-submission/executive-summary.pdf</code>	2–4 page narrative explaining SCITI as a creative government policy instrument, including competitive-advantage / investability framing
One-Page Visual Fact Sheet	<code>cea-submission/fact-sheet.pdf</code>	Landscape A4 infographic with key stats, pillars, top cities, and city-investor matching
Live Site Screenshots	<code>cea-submission/screenshots/*.png</code>	Desktop + mobile full-page captures of <code>sciti.nonarkara.org</code>
Source Code	<code>github.com/Nonarkara/smart-city-thailand-index</code>	Open-source React + Vite + TypeScript SPA under CC BY 4.0

2. Existing Published Reports (public/downloads/)

Document	File	Purpose
Executive Summary	<code>SCITI-2026-Executive-Summary.pdf</code>	High-level overview of index purpose and findings
Methodology	<code>SCITI-2026-Methodology.pdf</code>	Detailed scoring formula, data sources, audit rules
Report	<code>SCITI-2026-Report.pdf</code>	Full analytical report on city performance
Audit	<code>SCITI-2026-Audit.pdf</code>	Transparency and reproducibility checklist
Smart City Local Guideline SCL6	<code>smart-city-local-proposal-guideline-scl6-2026.pdf</code>	depa certification framework that SCITI assesses
Thailand Digital Catalog SCL6	<code>thailand-digital-catalog-scl6-2026.pdf</code>	List of approved smart city solutions linking cities to vendors/investors

3. Verified Quantitative Claims

Claim	Value	Source / Code Location
Cities indexed	118	<code>src/cityData.ts</code> + <code>src/registeredCityData.ts</code>
depa-certified cities	37	<code>src/cityData.ts :: certifiedCities</code>
Operational cities	39	Status verification from depa Smart City Thailand Office
Alpha-tier cities	9	<code>src/scoring.ts :: assignTier</code>
Provinces covered	77	Union of all city entries across datasets
Evidence source families	15+	<code>src/evidenceData.ts</code>

Public CDP endpoints	12	src/cdpData.ts
Top city score	Phuket 72.6	src/cityData.ts

4. Pillar Weights and Champions

Pillar	Weight	Champion City
Livability	25%	Phuket
Economy	20%	Samyan
Safety	15%	Samyan
Wellbeing	15%	CMU Smart City
Environment	10%	Satun
Hospitality	10%	Chiang Mai Old Town
Digital	5%	Samyan

Weights are fixed in code; no team member can adjust per city. Champions derived from highest pillar score in the dataset.

5. Key Government and International Sources

- **NSO** — National Statistical Office (demographics, household assets, labor)
- **NESDC** — National Economic and Social Development Council (GDP, digital economy targets)
- **GISTDA** — satellite flood-frequency data blended into livability scores
- **PCD** — Pollution Control Department air-quality signals
- **RTP** — Royal Thai Police road-fatality data blended into safety scores
- **MOPH** — Ministry of Public Health hospital/health indicators
- **BOI** — investment incentives and EEC committed investment figures
- **depa** — Smart City Thailand certification and operational status
- **World Bank CCDR 2025** — climate investment needs and flood-risk projections
- **ASEAN Smart City Financing Toolkit / ADB ACGF / UNCDF** — financing frameworks
